

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

2025 - 2029

B.Tech in Computer Science and Technology

- Coursework: Data Structures & Algorithms, Object-Oriented Programming (C/C++), Database Management Systems, Discrete Mathematics.

INDIAN INSTITUTE OF TECHNOLOGY, GUWAHATI (REMOTE)

2025 - 2027

Bachelor of Science (BS) in Artificial Intelligence and Machine Learning

- Coursework: Neural Networks, Deep Learning, Statistical Data Analysis, Linear Algebra, Scikit-Learn.

SKILL

- Languages:** C++, Python, JavaScript/TypeScript, SQL
- Frameworks & Libraries:** React, Next.js, Node.js, FastAPI, LangChain, TensorFlow, Scikit-Learn, Matplotlib, Streamlit
- AI & ML Tools:** Ollama, ChromaDB, DSPy, Hugging Face, Qwen, Llama 3, OpenAI API
- Infrastructure & Cloud:** AWS, Firebase, Vercel, Render, Docker, Kubernetes, Redis, n8n, PostGIS, Git/GitHub

WORK EXPERIENCE

IBM | AI Strategy and Business Intelligence Intern

December 2025 - April 2026

- Trained an XGBoost classifier on 120k samples achieving an **87% F1-score** for predictive business insights.
- Deployed scalable inference APIs using **FastAPI and Docker**, hosted on Render for high-availability enterprise access.
- Engineered automated data pipelines integrating fine-tuned Large Language Models (LLMs) and TensorFlow to extract structured metrics from raw datasets.

Wildish & Co. | Generative AI Engineer (Freelance)

Oct 2024 - Aug 2025

- Developed an AI-driven automated debugging pipeline by integrating predictive ML models, reducing manual QA ticket resolution time.
- Fine-tuned transformer models for anomaly detection in application logs, boosting system stability and performance profiling.

PROJECTS

Rawfy | Python, Node.js, TypeScript, MCP Server, REST API, CLI

<https://github.com/rishiicreates/rawfy>

- Built a 7-stage web extraction pipeline with semantic chunking to convert raw pages into LLM-optimized structured data (Markdown/JSON/Text).
- Shipped CLI, MCP server, REST API, and SDKs (Node.js/Python) for seamless integration into any agentic workflow.

Email Triage Agent Environment | Python, FastAPI, Docker, Hugging Face

<https://github.com/rishiicreates/email-triage-env>

- Architected an OpenEnv-compliant benchmarking API to evaluate LLM agents on multi-step reasoning, semantic routing, and PII detection.

MalloC | React Native, Expo, Node.js, Express, PostGIS, Razorpay

<https://github.com/rishiicreates/Mallock>

- Developing a hyperlocal marketplace app utilizing PostGIS for real-time geospatial buyer-seller matching and discovery.

Doubt Solver | Python, LangChain, ChromaDB, Ollama (Llama 3), Streamlit

<https://github.com/rishiicreates/srm-doubt-solver>

- Engineered a local RAG pipeline using ChromaDB and cosine similarity thresholding to enforce strict context adherence and refuse off-topic queries.

CERTIFICATIONS & ACHIEVEMENTS

- Data Science Certification (IBM)
- AI & Machine Learning Fundamentals (DeepLearning.AI)
- SURE Trust Shortlist (Generative AI & VLSI Design)
- MSME & Skill India Certification (Jan 2026)
- Google Cloud Study Jam (Oct 2025)
